ABOUT US.

Bring timeless elegance and unmatched durability to your landscape with MPG's Cobblestone Paving, also expertly known as cobbles or setts. These classic pavers are the perfect choice for creating a distinguished entrance, enhancing driveways, pathways, or garden edges with a design that effortlessly complements both traditional and contemporary house architectures.

Beyond their stunning aesthetic, our cobblestones are built to last. They are inherently durable and incredibly hard-wearing, easily standing up to heavy traffic and the harshest weather conditions for decades. At MPG, we are committed to quality and sustainability, which is why our cobbles are crafted using high-quality, Eco-friendly materials.

We offer an expansive range, ensuring you find the ideal match for your project. Browse our diverse selection of cobbles and setts in a variety of colors and textures, including rustic, honed, warm browns and bright yellows, sophisticated greys, and many more bespoke options. Transform your outdoor space into a statement of lasting beauty with MPG.

Black Limestone Cobbles

Size: 100X200MM, 100X100MM

Thickness: 35- 50MM

Make a bold statement with these deep, charcoal-hued cobbles. The striking black limestone provides a dramatic and sophisticated look, ideal for creating high-contrast driveways, pathways, or borders that command attention. Their dense, durable nature and rich color ensure your landscape maintains a sleek, modern, and elegant appearance for years to come.

Mint Fossil Cobblestone

Size: 100X200MM, 100X100MM

Thickness: 35- 50MM

Mint fossil cobblestone is crafted using the infamous mint fossil sandstone material, which is popularly characterized by yellow, orange, mint, and cream tones. This cobblestone features scattered fossils that offer great visual appeal and add character to any outdoor area. Mint fossil cobble setts are also highly durable and can last for years to come.

Autumn Block Cobbles

Size: 100X200MM, 100X100MM

Thickness: 35- 50MM

Autumn Brown cobblestone is crafted using autumn brown sandstone material, which is best known for its strength and durability for outdoor uses. This stone has great compressive strength and can easily bear heavy loads and high foot traffic. Autumn brown cobble setts exude light shades of brown, enhancing the overall exteriors.

Black Granite Cobbles

Size: 100X200MM, 100X100MM

Thickness: 35- 50MM

This cobblestone paving is crafted using black granite stone and can be used to enhance not only the look but also the durability and functionality of various landscaping areas. They are also popular and can be referred to as black granite setts, which go well with both modern and contemporary design settings. Black granite block paving offers a lasting solution for outdoor use for years.

Grey Granite Cobbles

Size: 100X200MM, 100X100MM

Thickness: 35- 50MM

Grey granite cobblestone is a type of natural stone that is specifically used for paving and landscaping projects. These setts are commonly used in outdoor projects and are highly valued for their durability and exceptional strength. Grey granite block setts boast a neutral Grey tone that goes well with contemporary design styles.

Black Cobblestone

Size: 100X200MM, 100X100MM

Thickness: 35- 50MM

Black cobblestone is a natural stone granite paving best known for its extreme durability and strength, which makes it a perfect choice for high-traffic areas as it can easily withstand high loads as well. Cobblestone black setts can also withstand harsh weather conditions and extreme environments, making them ideal for use in outdoor spaces.

Raj Green Cobbles

Size: 100X200MM, 100X100MM

Thickness: 35- 50MM

Raj green cobblestone is a natural stone paving hand-chiselled from Raj green sandstone material for various landscaping and hardscaping projects. It meticulously exudes green tints with golden hues and cementeries, creating unique, inviting, and robust paving in our outdoor areas. Raj green setts are perfect to create a contemporary and modern design style in your outdoors.

Yellow Cobblestone

Size: 100X200MM, 100X100MM

Thickness: 35- 50MM

Yellow cobblestone, as stated by the name, showcases bright to subtle dark yellow hues that make your outdoor space shine bright like a sunflower. It makes your space look spacious and brighter. Yellow block paving bricks are great to enhance the durability and longevity of exteriors while adding a touch of color.

Red Granite Cobbles

Size: 100X200MM, 100X100MM

Thickness: 35- 50MM

Mainly sourced from the southern region of India, red granite cobblestones are used to enhance both the beauty and functionality of outdoor spaces. These granite setts are usually smaller in size than boulders but larger than pebbles, and they can be used in various landscaping projects in both commercial and residential spaces that require strength and longevity.

Raveena Cobbles

Size: 100X200MM, 100X100MM

Thickness: 35- 50MM

Raveena cobblestone is a natural stone material for paving that exudes cool tones, including yellow, heather, Grey, and brown, that add a fresh touch to your outdoor spaces. This stone paving is crafted from sand-stone, which is ideal for having a blend of both style and durability in your outdoor space. Raveena block setts also resist normal wear and tear and last for years to come.

Kandla Grey Cobbles

Size: 100X200MM, 100X100MM

Thickness: 35- 50MM

Kandla Grey Cobblestone is crafted using popular Kandla Grey sandstone material, which is best known for its cool touch and opulent Grey hues it offers. This paving solution is ideal to create a modern and contemporary touch in your outdoor space while offering unmatched durability and longevity. Kandla Grey setts are also low-maintenance and can easily withstand high foot traffic as well.

Chocolate Cobbles

Size: 100X200MM, 100X100MM

Thickness: 35- 50MM

Chocolate block sets are crafted from chocolate sandstone material that exudes a dark chocolate shade. This cobblestone set is an excellent choice to match traditional design styles with an added layer of functionality. Chocolate cobblestones are highly durable and can last for years. It is an ideal choice to add a touch of uniqueness to your outdoor space.

Buff Sandstone Cobbles

Size: 100X200MM, 100X100MM

Thickness: 35- 50MM

Buff sandstone setts are made from buff camel dust sandstone material, which exudes light shades of camel beige and can be matched with contemporary design styles to elevate any exterior space. Additionally, buff sandstone paving setts are perfect to add great functional benefits for years to come without requiring much maintenance.
