ABOUT US

For over three decades, MPG Stone has been the trusted name in premium natural stone. Our journey began with a singular passion: to bring the Earth's most exquisite and durable natural materials to architects, designers, builders, and discerning homeowners worldwide.

We are not just a supplier; we are your dedicated stone partners.

Our commitment is rooted in uncompromising quality and flawless service. Each slab of stone in this catalog is a testament to this promise carefully sourced from reliable quarries across the globe and meticulously inspected to meet the highest international standards for performance, durability, and aesthetic perfection.

At MPG Stone, we blend decades of expertise with an extensive, curated collection of the world's finest stone. We ensure a seamless experience from your initial selection to professional, timely delivery.

THE TIMELESS TEXTURE OF NATURE

Slate is a fine-grained, metamorphic rock prized for its natural cleft and exceptional strength. Our selection is calibrated and tested for both interior and exterior applications, providing a robust, long-lasting, and beautiful finish.

Key Benefits of MPG Slate:

Durability:

Naturally dense and hard-wearing, perfect for high-traffic residential and commercial spaces.

Natural Beauty:

Unique texture, colour, and veining ensures no two installations are identical.

Longevity:

A low-maintenance material that retains its aesthetic appeal for generations.

Versatility:

Suitable for a spectrum of design styles, from rustic farmhouse to modern minimalist.

Signature Slate Collection:

Slate is a fine-grained, metamorphic rock prized for its natural cleft and exceptional strength. Our selection is calibrated and tested for both interior and exterior applications, providing a robust, long-lasting, and beautiful finish.

Technical Specifications

Feature	Specification Details	Application Suitability
Material	Natural Slate (Metamorphic Rock)	Flooring, Paving, Wall Cladding, Roof Slates
Finish Options	Natural Cleft (Rustic Texture), Honed (Smooth Matte), Brushed/Tumbled (Aged/Softened Edges)	Interior/Exterior, High Traffic Areas, Wet Areas
Thickness	10mm (Calibrated) to 30mm+ (Depending on product range)	10mm-15mm for interior floors; 20mm-30mm for exterior paving/coping.
Water Absorption	Low (≈0.4%–0.8%)	Excellent for freeze-thaw cycles and wet areas (bathrooms, poolsides).
Density	High (≈2.7–2.8 g/cm3)	Superior resistance to scratches and wear.
Shade Variation	V3 - V4 (Moderate to Substantial)	Inherent to natural slate; consult samples for true representation.
Sizes	Available in Standard Tiles (e.g., 30×30cm,60x-30cm,60×60cm) and Large Format Slabs.	Custom sizes available upon request for be-spoke projects.
Tolerance	Calibrated to ±1.5mm (Standard Industry Practice)	Ensures ease of installation and a consistent finish.
